

Essentials of Building Performance by pro clima CUBE

30 CPD
3 LBP

ATTENTION:
ARCHITECTS, DESIGNERS, BUILDERS & APPRENTICES

If you are ready to start, designing, specifying and building energy-efficient, healthy homes that last a lifetime – join the Pro Clima Essentials of Building Performance training.

Gain Confidence Specifying & Installing Weathertightness & Airtightness Membranes.

ESSENTIALS OF BUILDING PERFORMANCE

With the rising demand for healthier, energy-efficient, and resilient buildings, staying ahead in the industry means being equipped with the latest knowledge and techniques.

This course is designed to provide you with a solid foundation in moisture and vapour control, focusing on the installation of Weather Resistive Barrier (WRB) and Intelligent Air Barrier (IAB) systems. Whether you are new to Pro Clima or looking to refresh your understanding, this short course is the perfect starting point.

Learn Useful Building Science Through Hands-On Application.

LEARNING OUTCOMES

- Understand the science behind moisture and vapour control.
- Learn how to install pro clima's Weathertightness and Airtightness systems, including retrofit solutions.
- Understand improved window installation options.
- Learn from real project examples and insights into the NZ Building Code, NZS 3604 standards, BRANZ articles, and pro clima's Construction Detail Library.
- 30 CPD points or 3 LBP points with NZRAB and Licensed Building Practitioner (LBP) certification.
